

TARGET AUDIENCE

- HOME HEALTH NURSES
- HOSPITAL NURSES
- NURSING HOME NURSES
- HOME HEALTH AIDES
- NURSING MANAGERS
- STUDENT NURSES
- THERAPISTS

NO matter what field of nursing you are in, as health care providers, it is important to be able to document correctly in order to show that care was provided as ordered, a complete assessment was done, and to defend yourself against the liabilities surrounded in the area of poor documentation.

Presents

DOCUMENTATION

*(An Online
Presentation)*

Kimberley Kelly RN, BSN, LNC is a graduate of Ohio State University. She graduated with her Bachelor of Science in 1986. Ms. Kelly has worked in the acute care hospital setting, long-term care setting, and home health. She has worked as a vocational instructor in Florida and is a Department of Human Services Consultant Monitor for the State of Texas for home health agencies. Ms. Kelly received her Legal Nurse Consultant certification in 1999 and has served as an expert witness in home health and long-term care facility cases. She has worked also as a consultant for home health agencies and hospices since 1997 and is considered a regulatory expert. Ms. Kelly is also the Director and the Primary Nurse Planner of the Educational Provider Unit.

Ms. Kelly is very devoted to helping nurses learn how to be compliant with the Nurse Practice Act, and also with the standards of care set forth by the different industries nurses work in. *“I truly enjoy working with nurses and sharing the knowledge and experience I have gained through my legal nurse consulting work, DHS consultant-monitoring work, and experiences as a Florida and Texas BON monitor. In my opinion, nurses can always need a tune up when it comes to good documentation.”*

It is so easy to get caught up in the activities of the day, that one forgets all of the elements to documenting a good defense, especially when it comes to documenting patient care within the boundaries of the law and consistent with requirements of Home Health regulatory agencies.

This course will review with you the following information:

1. How to follow the Plan of Care outlined for Home Health aides, Therapists, and nurses.
2. How to properly complete the Comprehensive Oasis Assessment.
3. How to understand Licensed and Certified Home Health Patients and Medication Profiles (Dos and Don'ts)
4. How to notify the MD of changes in the client's condition.
5. How to define and understand the meaning of Obliterations.
6. How to understand the Home Health Documentation Process for all Home Health agencies.
7. How to understand the Plan of Care Field Descriptions.
8. How to understand the Addendum to the Plan of Treatment and Medical Update.
9. How to identify and properly document the correct Clinical Severity Domain during patient assessment.
10. How to plan out and document Visit Utilization and Frequency Adherence for Home Health clients.

11. How to plan and fill out correctly an Interdisciplinary Case Conference and a Physician 60 Day Summary.

Successful completion of this course with 6 clock hours requires completion and submission of a post-test meeting the requirements of a pre-determined score, self-reported level of achievement of objectives, a completion of the course before the deadline date(30 days to complete) and a completion of the online course evaluation.
